

Grant Program Sponsorships

Over the past 35 years, PPIE has funded over \$1,000,000 in Student and Education Grants. PPIE is building on this legacy and we are pleased to announce a chance to make a difference in the education of our students. Your sponsorship is an investment in public education, granting resources not currently available to our school community through tax dollars. These dollars can only be replaced through the generosity of our corporate, small business, and individual donors.

The Pleasanton Partnerships in Education Foundation (PPIE) is a non-profit 501c3 dedicated to supporting Pleasanton’s 15 public schools, 14,000 students and 9,000 school families. For 35 years, PPIE has enhanced education through a vibrant partnership of business, education and community.

Grant Program Sponsorships

Student Grants

PPIE provides grants of up to \$500 for student projects or special events that support student achievement in all areas that extend learning beyond the classroom. Our students are amazing and we love to see how they want to give back to their community through art, teaching, coaching, and inspiring others. Grant recipients include Girls Who Code, AVBots, engineering clubs, and more.

Teacher Inspire Grants

PPIE provides grants of up to \$3,000 to Pleasanton Unified School District (PUSD) employees to fund innovative projects that are student-focused, promote creativity and critical, offer expanded opportunities for learning, and support Common Core standards, as well as the PUSD Strategic Plan. Funding from these grants has allowed teachers to purchase lab equipment to give students more hands-on experience, Project Lead the Way materials, diverse literature, teaching materials, social-emotional learning support, and more.

Academic Competition Grants

PPIE awards funding to teams at the two comprehensive high schools to facilitate the participation of school-sponsored teams advancing through state, national, and international competitions while representing their schools.

*For a complete list of funded projects, please visit ppie.org/teacher-student-grants.
If something doesn't fit your needs, we can create a custom package.*
